Summary

Backend engineer with 7+ years in production systems. Currently writing Go at Mercado Libre for e-commerce platforms serving 1M+ customers, with end-to-end ownership of observability (OpenTelemetry; New Relic, Grafana, Datadog, Kibana). Part-time co-founder of FINK AI. Open to full-time backend roles (remote or relocation).

Experience

Mercado Libre — Software Engineer (Go)

Oct 2022 – Present · E-commerce platforms

- Write Go for scalable services serving 1M+ customers; use goroutines and in-memory caching where appropriate.
- Own the observability chain end to end: application metrics, OpenTelemetry instrumentation, and operational dashboards and alerts across New Relic, Grafana, Datadog, and Kibana.

FINK AI — Co-Founder (part-time)

May 2025 – Present · Alongside full-time employment

- Personal-finance product with 20,000+ registered users and 4.2M+ financial records; Open Finance.

ExxonMobil — Java Developer

Jul 2021 – Oct 2022

- Azure with Terraform; Confluent Cloud Kafka + Avro.
- MSP transition program; Leadership Recognition Award (2022).

Composable Bit — Java Developer

May 2021 – Jul 2021 · Self-employed

Go44 — Ruby Developer (part-time)

Oct 2020 – 2021 · Industry 4.0 systems

SaaSTec Labs — PHP Developer / Intern

Mar 2020 – 2021 · E-commerce systems

Banco do Brasil — Intern (Java)

Jan 2019 – Mar 2020 · Web systems (Java, JavaScript, MySQL)

Education

- MBA, Data Science & Analytics — USP / ESALQ, 2022–2024
- Bachelor of Computer Science — PUCPR, 2018–2021
- Digital Game Developer (technical) — IFPR, 2015–2017
